

CSH Symposium 2016

Invited participants: all members of University of Bern, especially CSH and WP, and candidates for CSH Fellows

Schedule

09.00-09.30: Welcome and opening by Prof. Kevin Heng

09.30-10.00: **Lauren Weiss (Berkeley)**; mass-radius relations of exoplanets, spectrometry of rocky/icy bodies in the Solar System)

10.00-10.30: **Maria Drozdovskaya (Leiden)**; astrochemistry, ALMA)

10.30-11.00: Coffee/tea break

11.00-11.30: **Songhu Wang (Nanjing/UC-Santa Cruz)**; general exoplanet science)

11.30-12.00: **Colin McNally (Niels Bohr Institute)**; protoplanetary disks, MHD)

12.00-13.30: Lunch break

13.30-14.00: **Andrea Loettgers (Bern)**; philosophy and definition of life)

14.00-14.30: **Natalie Hinkel (Arizona)**; stellar astronomy and abundances)

14.30-15.00: **Caleb Wheeler (Arizona)**; submillimeter instrumentation)

15.00-15.30: Coffee/tea break

15.30-16.00: **Susanne Wampfler (Copenhagen)**; astrochemistry)

16.00-16.30: **Jan Beck (Basel)**; ecology and definitions of life)

16.30-17.00: **Daniel Angerhausen (NASA-GSFC)**; exoplanet detection)
